After 15 years of Sonic the Hedgehog video games, there are a couple of questions that you might ask yourself.

First, do you remember the first time you played a Sonic game? We do; it was back in 1991, and as far as we were concerned, the original *Sonic the Hedgehog* was far more than just a Sega Genesis cartridge. It was like a window to another world, and like most true video gamers, we're grateful to Sega for keeping that window wide open for so long.

Another question that cropped up while we were working on this issue's Sonic cheat code retrospective: How many bad Sonic games are there? In our opinion, hardly any at all. The series has had a surprisingly consistent "batting average," especially when you consider the fact that we've gone through several new generations of video-game hardware since Sonic first appeared.

Finally, what does the future hold for our hedgehog hero? Well, Sega has offered the press a few tantalizing glimpses of its next-generation Sonic game which is currently in development for the Xbox 360 and PlayStation 3. If you keep an eye on our monthly *Tips & Tricks* magazine, you can expect to hear a lot more about this new game as details become available; we can't wait to get our hands on it.

We'd like to congratulate the folks at Sega for 15 years of great Sonic games, and to thank them for all the thrills that these games have continued to deliver to the world. Here's to the next 15 years!

CHEAT CODE BLOWOUT!

Sonic the Hedgehog has been running across TV screens, grabbing rings and foiling the plans of the evil Dr. Robotnik for exactly 15 years. We've got many great memories of playing his games over the years, and we've also got tons of cheat codes for nearly all of the games he's ever appeared in. You'll find them all on the following pages. Happy anniversary, Sonic!

SONIC THE HEDGEHOG Genesis, 1991

Also Available in:

Sega Smashpack Volume 1 (Dreamcast)
Sonic Mega Collection (GameCube)
Sonic Mega Collection Plus (PS2/Xbox)

Stage Select/Sound Test

At the title screen—just as Sonic is starting to appear—press Up, Down, Left, Right. You'll hear a chime. Now hold the A button and

press START to get a secret menu that allows you to start at any stage or hear any of the game's music or sound effects. (On the Dreamcast or Xbox, hold X and press START to access the menu; on the PS2, hold □ and press START; on the GameCube, hold B and press START.)

Debug Mode

At the title screen—just as Sonic is starting to appear—enter the following code:

Genesis—C, C, Up, Down, Left, Right
Dreamcast or Xbox—B, B, Up, Down, Left, Right
PS2—□, □, Up, Down, Left, Right
GameCube—X, X, Up, Down, Left, Right

You'll hear a chime. With this code in place, you'll have access to the following features:

- System Reset—Press START to pause the game, then press A to reset to the title screen. (On the Dreamcast or Xbox, press X to reset to the title screen; on the PS2, press □; on the GameCube, press B.)

- Slow-Motion—Press START to pause, then hold the B button to play in slow motion. (Hold A on the Dreamcast, Xbox or GameCube; hold X on the PS2.) If you tap the C button while paused, you'll advance the action one "frame" at a time. (Tap B on the Dreamcast or Xbox; tap □ on the PS2; tap A on the GameCube.)
- Debug Mode—When the name of the current zone appears in big letters at the start of a stage, press the A button and hold it down until Sonic appears. (Hold X on the Dreamcast or Xbox; hold □ on the PS2; hold B on the GameCube.) Your "Score" indicator will be replaced by a bunch of hexadecimal numbers. Now you're invincible; the only thing that can kill you is if you fall off the screen. Press B during gameplay to change Sonic a different object from the game. (Press A on the Dreamcast, Xbox or GameCube; press X on the PS2.) While Sonic is a different object, you can move the object anywhere in the current stage with the D-pad. Also, when in "object" mode, the following functions are available:

	Genesis	DC/ Xbox	Game- Cube	PS2
Change to a different object	A	X	B	□
Place the object on the screen	C	B	X	○
Change back into Sonic	B	A	A	X

Use this feature to modify the game's stages or even "draw" hundreds of gold rings on the screen; when you change back into Sonic you can pick them all up.

Sonic Mega Collection (GameCube)
Sonic Mega Collection Plus (PS2/Xbox)

Stage Select

At the "Sound Test" menu, listen to sounds 19, 65, 09 and 17 in order; you'll hear a chime when you activate the last sound. Next, return to the title screen, highlight "1 Player," hold A and press START to access the stage-select menu. (Hold B and press START on the GameCube; hold □ and press START on the PS2; hold X and press START on the Xbox.) With this code in place, you'll also have access to the following features:

- System Reset—Press START to pause the game, then press A to reset to the title screen. (Press B instead on the GameCube; press □ on the PS2; press X on the Xbox.)
- Slow-Motion—Press START to pause, then hold the B button to

play in slow motion. (Hold A instead on the GameCube or Xbox; hold X on the PS2.) If you tap the C button while paused, you'll advance the action one "frame" at a time. (Tap X instead on the GameCube; tap □ on the PS2; tap B on the Xbox.)

Chaos Emeralds Cheat

At the stage-select menu (see above), highlight "Sound Test" and listen to sounds 04, 01, 02 and 06 in order; you'll hear the fanfare that sounds when you get a Chaos Emerald. This code gives you all of the Chaos Emeralds; you can grab 50 rings and jump to change into Super Sonic. You'll also be able to see the "good" ending when you beat the game.

Debug Mode

At the stage-select menu (see above), highlight "Sound Test" and listen to sounds 01, 09, 09, 02, 01, 01, 02 and 04 in order; you'll hear a chime to confirm. Now highlight the name of any stage,

SONIC THE HEDGEHOG 2 cont.

hold the A button and press **START**; don't release A until the stage begins. (Hold B instead on the GameCube; hold \square on the PS2; hold X on the Xbox.) See the codes for the original *Sonic the Hedgehog* game to find out how the debug mode works; the only difference is that you don't get invincibility when you enter the Debug Mode in *Sonic 2*.

"Night" Mode

Enter the "Debug Mode" code above, then highlight the name of any stage at the stage-select menu, hold the C button and press **START**. (Hold X and press **START** on the GameCube; hold \circ and press **START** on the PS2; hold B and press **START** on the Xbox.) This darkens the graphics, making it appear as if you're playing at night.

SONIC CD

Sega CD, 1993

Also Available in:

Sonic Gems Collection (GameCube)

Stage Select

Enter the following code while the words "PRESS START" are flashing on the title screen:

Sega CD—Up, Down, Down, Left, Right, B
GameCube—Up, Down, Down, Left, Right, A

You'll be sent to a "Stage Select" menu with full access to nearly all of the game's levels, including the "past," "present" and both "future" versions of each stage. You can't start a game from any stage with this trick—since you'll be sent back to the game's title screen as soon as you clear a stage—but you can use it to see the whole game and check out a few of the demo scenes.

Title-Screen Tricks

While the words "PRESS START" are flashing on the screen, hold the A button and press Up, Down, Down, Down, Down, Up. (Hold B instead while entering the code on the GameCube.) Now you can change the appearance of the title screen by pressing the following buttons on Controller 2:

	Sega CD	GameCube
Zoom in/out	Left/Right	Left/Right
Tilt horizon	Up/Down	Up/Down
Rotate clouds	A/C	B/X
Speed up	B	A

Secret Demo Mode

Play the Time Attack Mode until your total time is less than 37'27"57. When you achieve this goal, go back to the title screen—

you'll find a new selection on the menu called "D.A. GARDEN." It's a visual sound test—you can move the globe around the screen with the D-pad as the game's characters fly across the foreground.

Bonus Round Time Attack

If you can get your total time below 30'21"05 in the Time Attack Mode, you'll be able to access a new set of challenges by pressing Left on the D-pad while the Time Attack menu is on the screen. Now you can race in the "Special Zone" bonus rounds.

Visual Mode

The most difficult Time Attack trick of all requires you to get your total time below 25'46"12. Once you've cut your time down this far, you'll find a "VISUAL MODE" option on the title-screen menu—it allows you to watch the game's opening sequence, both the "bad" and "good" endings and a unique "Pencil Test" demo.

Sound/Music Test

Enter the following code while the title screen is flashing the words "PRESS START":

Sega CD—Down, Down, Down, Left, Right, A
GameCube—Down, Down, Down, Left, Right, B

You'll move to a hidden Sound Test menu, with options for listening to sound effects ("FM"), digitized samples ("PCM") or digital audio tracks straight from the CD ("DA").

Secret Bonus Round

Using the Sound Test as described above, set all three menu items at "07" and press the **START** button. A message will appear that says "WELCOME TO SECRET SPECIAL STAGE," a special bonus round! Beat this stage and you'll get a condensed credit screen that's different from the credits you'll see when you beat the game.

SONIC CD continued

Debug Mode

Using the Sound Test as described above, set up the numbers as follows: FM No. 40, PCM No. 12, DA No. 11. Press **START** and you'll get a cool photo of Tails standing next to a race car. When you return to the title screen, start a new game and the Debug Mode will be in place. See the codes for the original *Sonic the Hedgehog* for an explanation of how the debug mode works.

Strange Message

Set up the numbers in the Sound Test as follows: FM No. 46, PCM No. 12, DA No. 25. Press **START**; this gives you a weird screen with an evil-looking Sonic behind a message in Japanese.

Sonic the Human Hedgehog?

Using the Sound Test, enter the following numbers: FM No. 42, PCM No. 04, DA No. 21. Press **START** and you'll get an eerie graphic of a half-human Sonic.

Also Available in:

Sonic Mega Collection (GameCube)
Sonic Mega Collection Plus (PS2/Xbox)

Stage Select

After the Sega logo appears at the start of the game, you'll see a blurry scene of Sonic rushing toward you. The instant Sonic appears, quickly press **Up, Up, Down, Down**,

Up, Up, Up, Up. You'll hear a chime to confirm the code. Note: This is a very difficult code to enter. You must press the buttons at a consistent speed, starting at the exact moment when the screen turns black; you should finish entering the code just a split-second before the screen turns pure white. Use a very light touch on the D-pad and press **Up** and **Down** evenly, making sure not to touch the diagonals. If you don't hear the chime, just reset and try again. Once you've done it right, press **Up** or **Down** at the title screen menu until you see a new item called "Sound Test"; this gives you a stage-select and sound test menu. The list even includes the names of zones that were taken out of the game before it was released. You can't play these stages, but you can hear the music from them with the Sound Test option. With the code in place, you have access to the "System Reset" and "Slow-Motion" features described in the codes for the original *Sonic the Hedgehog*.

Debug Mode

At the stage-select menu (see above), highlight the name of any stage, hold the **A** button and press **START**; don't release **A** until the stage begins. (Hold **B** instead on the GameCube; hold \square on the PS2; hold **X** on the Xbox.) See the codes for the original *Sonic the Hedgehog* to find out how the debug mode works; the only difference is that you don't get invincibility when you enter the Debug Mode in *Sonic 3*. However, if you get killed when playing in Debug Mode, just press the "change into an object" button quickly before Sonic falls off the screen with the surprised expression on his face; this will freeze the action. Now just use the D-pad to move the object to a safe place and then change back into a healthy Sonic.

Secret Special Stage

At the stage-select menu (see above), select the "Sound Test" option and listen to sound 01, then 03, then 05, then 07; you should hear a chime when you select the last number. Now highlight "Special Stage 2," hold the **A** button and press **START** to play a secret special stage. (Hold **B** instead on the GameCube; hold \square on the PS2; hold **X** on the Xbox.)

"Night" Mode

The "Night" Mode trick as described in the *Sonic the Hedgehog 2* codes will also work the same way in *Sonic the Hedgehog 3*.

Sonic Adventure DX: Director's Cut (GameCube)

Stage Select

After the Sega logo fades out, press and hold **Up** on the D-pad and watch Knuckles start to pick up the gems from the screen. While still holding **Up**, you must press the **START** button at the exact instant when Knuckles touches the third gem (the red one). If your timing is perfect, you'll hear a chime. Press **START** at the title screen; the stage-select menu will appear after you choose your character.

SONIC & KNUCKLES Genesis, 1994

Also Available in:

Sonic Mega Collection (GameCube)
Sonic Mega Collection Plus (PS2/Xbox)

Stage Select

Play through the first stage until you reach one of the ratchet machines that allow you to pull yourself up. Jump and hang on to one of the handles, then—while your character is

hanging from the handle—press **Left, Left, Left, Right, Right, Right, Up, Up, Up**; you'll hear a chime to confirm the code if you've entered it quickly enough. Now press **START** to pause, then press **A**. (Press **B** instead on the GameCube; press \square on the PS2; press **X** on the Xbox.) The game should restart. When the title screen reappears, hold the **A** button and press **START** to access the stage-select and sound test menu. (Hold **B** instead on the GameCube; hold \square on the PS2; hold **X** on the Xbox.) Note that you cannot access certain levels unless you have a copy of *Sonic 3* "locked-on" to your *Sonic & Knuckles* cartridge (or you are playing *Sonic 3 & Knuckles* in *Sonic Mega Collection* or *Sonic Mega Collection Plus*).

Stage Select with Sonic 3 "Locked-On"

Play through the first stage until you reach one of the swinging vines with the handles on the ends of them. Jump up and grab the handle, then—while your character is swinging from the vine—press **Left, Left, Left, Right, Right, Right, Up, Up, Up**; you'll hear a

chime to confirm the code if you've entered it quickly enough. Now press **START** to pause, then press **A**. (Press **B** instead on the GameCube; press \square on the PS2; press **X** on the Xbox.) The game should restart. Press **Up** or **Down** at the title screen menu until you see a new item called "Sound Test"; this gives you the stage-select and sound test menu. Near the upper left corner of the screen is a small number which you can change by pressing the **C** button. (That'd be **X** on the GameCube; \square on the PS2; **B** on the Xbox.) This number represents the character you want to play with according to the following legend:

00—Sonic and Tails	02—Tails
01—Sonic	03—Knuckles

Stage Select with Sonic 2 "Locked-On"

At the title screen, quickly press **Up, Up, Up, Down, Down, Down, Left, Right, Left, Right**; you'll hear a chime to confirm the code if you've entered it properly. Now hold the **A** button and press **START** to access the stage-select menu. (Hold **B** instead on the GameCube; hold \square on the PS2; hold **X** on the Xbox.)

Secret Bonus Levels (Genesis Only)

Plug any Genesis cartridge into the top of *Sonic & Knuckles*. If the screen says "No Way! No Way?!", press **A + B + C** to access randomly-generated sphere bonus levels.

SONIC LABYRINTH Game Gear, 1995

Also Available in:

Sonic Adventure DX: Director's Cut (GameCube)
Sonic Mega Collection Plus (PS2/Xbox)

Stage Select

Wait for the words "Press Start Button" to appear on the title screen, then press **Up** twice, **Right** three times, **Down** six times and **Left** nine times; the word "Select" will appear beneath the logo. Now press **START** to access the main menu, where you'll find that the sound test option has been replaced by a stage select. Change the "Config" number to choose your starting stage.

Bonus Stage

There's a door in the lower right area of Stage 2-3 that leads to a bonus stage. To unlock the door, look for the cannon in the lower left part of the stage. Normally, the cannon sends you to the exit door, but if you jump in and hold **Right** + **A** + **B** (or **Right** + **X** + **O** on the PS2) before the cannon fires, it will send you to a special switch near the start of the stage. Hit the switch to open the "Bonus" door.

SONIC RUSH Nintendo DS, 2005

Easy Chaos Emeralds

Place the Nintendo DS on a table or desk and hold the stylus with your left hand. When you approach the first obstacle or ring in a Special Stage, quickly press the **START** button to pause. Take a moment to evaluate the oncoming obstacles and hold the stylus at the point

where you want Sonic to be, then perform a quick double-tap on the **START** button to very briefly pause and pause again. Each time you double-tap the **START** button, Sonic will quickly shift to the spot you're pointing to and the game will pause again, allowing you an infinite amount of time to see what's coming. It takes time, but with this method you can slowly inch your way through the Special Stages and grab all seven Chaos Emeralds with ease.

SONIC RIDERS PS2/GameCube/Xbox, 2006

Quick Tips

- With careful timing, it is possible to cross the starting line at the exact instant when the electrical barrier disappears. If you can pass the starting line at just the right time without dropping speed, you'll get a mini-turbo boost that can give you a head start over your opponents.
- Speed Type characters like Sonic and Jet can take a shortcut over the crossroad in the last half of Metal City; look for a rail to grind in the air.
- In Splash Canyon, keep your eyes peeled for a waterfall on the left side of the course. There's a ramp hidden behind it which you can

- use to launch your character into a shortcut with accelerator rings.
- A huge train blocks the track in Metal City, but that's not a problem for Power Type characters like Knuckles and Storm, who can knock the train out of the way!
- In the Egg Factory stage, watch for the corner where you can see the core of Eggman's factory. There's a section of the wall on the right side which can be broken open by Power Type characters, revealing a hidden shortcut.
- If you successfully complete all of the stages up to Stage 5, you will unlock several secret characters, including Cream and Rouge.
- When you successfully complete the Story Mode, you will be able to obtain several new types of Gear, including some unusual racing vehicles.

BALDUR'S GATE: DARK ALLIANCE II

Item Duplication Trick

You'll need two controllers for this trick. Pause the game and select the "Change Players" menu, then select a new character (preferably Dorn, since he can carry more). Drop whichever items you want to duplicate and have the second player pick them up. Next, save your game and transfer the items back to your primary character. Enter the "Change Players" menu again and import the second character from the fresh save. That character will have the items that you just dropped as well, so you can sell off any duplicates, have them both equip the same item or break items down at the shop and recover gems. With this trick, you can easily build up your inventory of gems and items by duplicating them and gain massive amounts of gold by selling the duplicate items.

This cheat automatically levels your character up to level 10, gives you 45 Feast points and gives your character 500,000 gold. GRAND THEFT AUTO: SAN ANDREAS

Cheat Codes

Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note: Some of the codes cannot be deactivated once you've turned them on; you must reset the PlayStation 2 in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file and your save file may become corrupt. Activating cheats will lower your in-game ranking. Also, some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

Secret Cheat Codes

Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note: Most of the codes cannot be deactivated once you've turned them on; you must reset the PlayStation 2 in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file. To keep your saved game from being affected, remove your memory card before entering any cheat codes and leave it out until after you turn off the PS2. Also, some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

Use these codes to play as alternate versions of X or Zero in Mega Man X6. Note that you can only use one code at a time; for example, if you want to play as Nightmare Zero, you won't be able to use Ultimate Armor X in the same game.

• Ultimate Armor X—Press START at the first Mega Man X6 title screen, then press Left, Left, Left, Right at the Game Start/Continue/Option menu. You'll begin the game with X's Ultimate Armor, which is very much identical to the same Armor from Mega Man X5. It allows X to fire a super charged shot, hover in place and perform the Mega Crush attack at will.

• Nightmare Zero—Press START at the first Mega Man X6 title screen, then press L1, L1, L1, R2 at the Game Start/Continue/Option menu. When you rescue Zero after defeating him in battle, you'll play as the Nightmare version of Zero instead of the normal version. BALDUR'S GATE: DARK ALLIANCE II

Item Duplication Trick

You'll need two controllers for this trick. Pause the game and select the "Change Players" menu, then select a new character (preferably Dorn, since he can carry more). Drop whichever items you want to duplicate and have the second player pick them up. Next, save your game and transfer the items back to your primary character. Enter the "Change Players" menu again and import the second character from the fresh save. That character will have the items that you just dropped as well, so you can sell off any duplicates, have them both equip the same item or break items down at the shop and recover gems. With this trick, you can easily build up your inventory of gems and items by duplicating them and gain massive amounts of gold by selling the duplicate items.

Invincibility/Level Warp

At any time during gameplay, hold Left Trigger + Right Trigger + A + B + X + Y and press the START button to bring up the cheat menu. Level-Up Cheat

At any time during gameplay, hold Left Trigger + Right Trigger + A + B + X + Y and press the White button. This cheat automatically levels your character up to level 10, gives you 45 Feast points and gives your character 500,000 gold. Be careful when your character passes level 10, since the code will reset all of your character's stats back to level 10.

Cheat Codes
Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note: Some of the codes cannot be deactivated once you've turned them on; you must reset the Xbox in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file and your save file may become corrupt. Activating cheats will lower your in-game ranking. Also, some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Activating certain codes may prevent other codes from being activated. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

Secret Cheat Codes

Enter the following cheat codes at any time during the game (but not while paused). Each time you enter a code successfully, a message will appear in the upper left corner of the screen to confirm. Note:

Most of the codes cannot be deactivated once you've turned them on; you must reset the Xbox in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file. It's a good idea to keep a copy of your save file on a memory card; this way, you'll have a backup in case anything happens to the GTA: Vice City save on your Xbox hard drive. Note: Some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive.

STEEL BATTALION

Unlock Free Mission Mode

Note: This code requires the player to set the Tuner Dial on the Steel Battalion controller to specific positions. Unfortunately, the settings on the Tuner Dial are not labeled. For the purposes of explaining the code, we will refer to the individual hash marks around the Tuner Dial as numbers from 0 through 12, starting from the extreme left position. In other words, 0 is straight left, 4 is straight up, 8 is straight right and 12 is straight down.

At the title screen, move the Tuner Dial to the following positions, one at a time, and pause for a second or two at each number position: 1, 9, 7, 9, 0, 9, 0, 6. In other words, set the Tuner Dial in the 1 position, wait a moment, turn the dial clockwise for eight "clicks" to the 9 position, wait a moment, turn the dial counter-clockwise for two "clicks" to the 7 position, etc. When you've entered the code correctly, you'll hear a sound effect to confirm. Now you can select "Free Mission" mode from the main menu, which allows you to play any mission at any difficulty setting with all of the VTs unlocked

Money Tree

Search your town for a glowing spot on the ground; you'll find one per day. Dig up the glowing spot with your shovel to find bells. Notice that the hole is still glowing after you remove the bag of money. If you bury some bells in that spot, it may grow into a "money tree" that drops bags of bells like fruit. (The bells won't reappear after a few days the way fruit does.) Try different denominations for different results.

Get the Golden Shovel

Buy an extra shovel from Tom Nook and bury it in the glowing spot (see above) before you leave the acre it's in. If the spot is not too close to a wall, bush or other obstacle, a special golden tree may

appear. Within a few days, it may bear fruit in the form of a special golden shovel. The golden shovel can be used to dig up bells from random spots all over your town. You can also use it to find rare items on the island by using the following method: Bury unwanted furniture on the island, then leave the golden shovel there along with various kinds of fruit. Playing on the Game Boy Advance, feed your islander fruit until he or she has a very happy, squinting smile, then have the islander dig up the furniture with the golden shovel. He or she will replace the furniture items with rare "Island" items or even NES games like *Baseball* or *Wario's Woods*. Now return to the island on the GameCube to retrieve your golden shovel and dig up the rare items the islander buried.

Get the Golden Axe

To get a special golden axe which never breaks, you must maintain what the wishing well considers to be a "perfect" town as determined by the following criteria:

- 1) Pull all of the weeds in your entire town and pick up all of the trash from the ground.
- 2) Plant and/or chop down trees until there are between 12 and 14 trees in every acre where it's possible to do so.
- 3) Plant lots of flowers (flowers can reverse the negative effects of weeds that this, speak to the wishing well and ask it "How are things?" If it says "Everything is perfect! [Town name] is a very liveable place," you must then maintain the town for two full weeks without any lapses in the "perfect" rating. The next player who visits the wishing well after the 14th day will be given a golden axe by the well spirit. If you get any other message from the wishing well, it's probably because you didn't count the trees correctly. To help you determine which acre each tree is in, pay attention to the invisible borderline that causes the screen to scroll into the next acre when you cross it.

POKÉMON XD: GALE OF DARKNESS

Top 10 Tips

- As you receive E-mails throughout the game, be sure to closely read them all. Many of them contain important information about things you need to do.
- If you're trying to snag a Shadow Pokémon and you mistakenly make it faint, don't worry—you can still capture that Shadow Pokémon later on in the game.
- Try clearing all 100 Mt. Battle trainers without losing and without changing your party Pokémon. You'll get a reward for your efforts.
- Keep as many Shadow Pokémon in your party as possible; doing so will help speed up the purification process as you walk around and battle.
- If you beat a Colosseum more than once, you can earn some extra TMs.
- Mt. Battle is a great place to level up your Pokémon and to work at purifying your Shadow Pokémon as you make your way through the many battles. Take advantage of it as soon as possible in the game.
- When you are given the choice of evolving Eevee, choose wisely. Although any one of its evolutions will work fine, think about how you want your main Pokémon team to battle, and evolve it based on that.
- Not all of the Shadow Pokémon are in Cipher's possession. Be sure to explore and talk to everyone.
- When it's time to purchase healing items, don't forget about the vending machine in Pryte Town. Lemonades have the best HP for your Pokédollar late in the game. However, you'll want to make sure to have a few potions of the appropriate kind on standby to max out your HP in one turn.
- Pokémon that have had their hearts closed will not learn all the moves of a regular Pokémon. Don't forget to take purified Shadow Pokémon to Mt. Battle's Move Trainer to find out what moves they've missed.

RESIDENT EVIL

Special Weapon

If you beat the game in Normal Mode after under five hours, you will start with the Samurai Edge Barry Version gun in your inventory when you play again by choosing the "Once Again..." option. The Samurai Edge is similar to the regular Handgun, except it has infinite bullets and fires three rounds consecutively when you pull the trigger.

Infinite Rocket Launcher

If you beat the game in Normal Mode after under three hours, you will start with the Infinite Rocket Launcher in your inventory when you play again by choosing "Once Again..." at the main menu.

Grenade Launcher Trick

(Note: This trick will only work with Jill. Also, it's possible that using this trick will adversely affect the quantities of other items in your inventory, so try this at your own risk.) With the Grenade Launcher and at least one spare set of unequipped grenade shells in your inventory, equip the Grenade Launcher and find an item box. When you open the item box, immediately select the set of grenade shells in your inventory and place it in the very first slot in the item box. (The first slot of the item box is selected by default when you first open the box—it usually contains the First Aid Spray when you start the game or the Closet Key if you've already cleared the game once.) Now select the grenade shells occupying the first slot in the item box and combine the shells from the item box directly to your equipped Grenade Launcher. The number of shells displayed under the Grenade Launcher will become corrupted. Now exit the item box; Jill will have 240 shells in her Grenade Launcher when you check her inventory. If you still have unequipped Grenade Launcher ammo in the item box, stay in the item box screen and swap out the grenade shells again. You'll see the 496 shells back in the item box. Now move the 496 shells from the item box into an empty slot in your inventory and exit out of the item box. You'll still have the spare set of 496 shells—and you'll also have 240 shells in the Grenade Launcher if you pulled them from the first item spot the second time you combined them. If you have more than one set of unequipped shells, you can keep swapping them out between the first slot of the item box and the equipped Grenade Launcher to create more shells at any time.

ADVANCE WARS: DUAL STRIKE

Unlock Additional Battle Maps

Insert either of the *Advance Wars* Game Boy Advance game into the GBA cartridge slot of your DS before powering on the system to play *Advance Wars: Dual Strike*. Select "Battle Maps" from the main menu and you'll find that additional maps are available. If you have *Advance Wars* inserted, you can purchase the Hachi's Land, Nell's Land and *Advance Warpaper Battle Maps*. If you have *Advance Wars 2: Black Hole Rising* inserted, you'll be able to purchase the Sturm's Land, Lash's Land and *Advance Warpaper 2 Battle Maps*. Each of these maps can be purchased for only one point.

Unlock Advance Wars Custom Map

At the System Menu screen, choose "Design Room," then select "Map" and immediately hold down the L and R buttons while the screen fades out. A special pre-made map will appear with terrain that spells out "Advance Wars."

ANIMAL CROSSING: WILD WORLD

Get a Golden Shovel

Buy a second shovel from Tom Nook and bury one of them in the ground. Remember where you buried it, and dig it up 24 hours later to find a Golden Shovel. The Golden Shovel can be used to plant money trees, although they will not always bear fruit.

Get a Golden Net

Catch all the bugs that appear in the game to get the Golden Net from Tortimer. It is not necessary to donate them to the museum, as long as you have caught them all. Note that bugs given to you by another player do not count toward getting the Golden Net. The Golden Net is wider than the regular net, making it easier to catch bugs.

Get a Golden Rod

Catch all the fish that appear in the game to get the Golden Rod from Tortimer. It is not necessary to donate them to the museum, as long as you have caught them all. Note that fish given to you by another player do not count toward getting the Golden Rod. The Golden Rod makes it slightly easier to catch fish.

Get a Golden Can

Once Pelly or Phyllis deems your town perfect, keep it perfect for 16 days. The next time you speak to Pelly or Phyllis, you'll get the Golden Can. Using the Golden Can on withering flowers can turn flowers gold.

Get a Golden Slingshot

Shoot 15 floating presents out of the sky with the Slingshot. The 16th present you see float by will be the Golden Slingshot, so don't miss it! The Golden Slingshot fires three bullets at a time, making it easier to shoot down presents.

Get a Golden Axe

Buy a red turban from Joan and bury it in the ground. This starts a long trading quest which can get you some rare items, such as Tom Nook's Pic, K.K.'s Pic, Pashia's Pic and the Golden Axe. Water the red turban daily and dig it up later. (For this purpose, you can dig it up after one day if you don't feel like spending the time.) The next time Wendell is in town, give him your red turban. He'll either give you the country guitar or the turban. If you get

the country guitar, give it to K.K. Slider the next Saturday and he'll give you his picture. But if Wendell gives you the turban, give it to Sarah to get either a massage chair or a red vase. Give the red vase to Crazy Redd when he's in town to get the safe, which you should give to Tom Nook in exchange for his picture. If you got the massage chair, give it to Tortimer on your town's next holiday to get a scallop. Give the scallop to Pascal when you next see him to get either the Golden Axe or Pascal's pic. You can start the quest over (by purchasing another red turban) if you want to keep all of the items mentioned above.

CASTLEVANIA: DAWN OF SORROW

KIRBY: CANVAS CURSE

Secret Characters

• **Waddle Dee**—Finish the game once. When you start a game from the same file, Waddle Dee will be revealed as a new playable character. He only has four hit points, and cannot obtain powers. He's also much lighter than Kirby.

• **Dede Dee Ball**—After you unlock the Waddle Dee Ball, you can buy the Dede Dee Ball in the Medal Swap for 20 medals. He has seven hit points, and swings a hammer when you tap him. He also cannot obtain powers. He's much larger and heavier than Kirby.

• **Meta Knight Ball**—After you unlock the Dede Dee Ball, you can buy him in the Medal Swap for 25 medals. He only has three hit points. He's much lighter than Kirby, but he's slightly stronger.

• **Waddle Doo Ball**—After you've beaten the game at least once, insert Kirby and the Amazing Mirror or Kirby: Nightmare in Dreamland into the Game Boy Advance cartridge slot of your DS. When you start a game of Kirby: Canvas Curse, Waddle Doo Ball will be available. An alternative way to unlock him is to beat the game with all four of the other characters. He has five hit points and the Beam ability. He can't obtain any other powers.

Jump Game Medal

The Jump Game unlocks in the Game Select menu after you beat the game with every character. If you manage to launch Kirby 1,500 meters, you'll land right on top of a medal, which is sitting on the course. The best way to launch Kirby this far is to preserve enough ink so you can draw a second ramp when Kirby is already in the air.

NINTENDO DS

Extra Treats

When you're training your dog to learn tricks, a yellow light bulb will appear over its head. You can grab the light bulb and feed it to your dog like a treat! You might also notice that sometimes a yellow bone will appear if you've been petting your dog a lot. You can feed this to it, too.

Constant Walks

Usually you can only walk your dog every half-hour. However, there is a trick that you can use to get around this limitation. Walk your dog to the park, then switch one of its accessories. The game will automatically save. Turn off the game and you can take your dog for a walk again immediately! This is a great way to increase your chances of finding rare presents.

Mystery Presents

When walking your dog, sometimes you'll see a present just lying on the sidewalk. Your dog will only pick it up if you notice the present and jerk your pooch in the direction of the present. These presents are usually better than the ones that are already marked by Question Marks on the map.

PUYO POP FEVER

Unlock All Gallery Items

Choose "Options" from the main menu, then select "Gallery." At the Gallery menu, highlight "View Cut scenes," hold the X button and press Up, Down, Left, Right. You'll hear a sound to confirm; now all

of the cutscenes and the voice samples for all characters will be unlocked.

Endless Puyo POP Character Select/Pattern Change Select "Endless Puyo POP" from the main menu, then highlight the mode you wish to play and press Up, Down, X. A. You'll hear a sound to confirm, and the character-select screen will appear, allowing you to play as any character in this mode. Also, if you hold the X button down while selecting your character, you will be able to play with that character's puyo pattern instead of the "classic" pattern (Arie's pattern). Note that your high scores will not be saved when playing with the character-select active.

Single Puyo POP Character Select

Select "Single Puyo POP" from the main menu, then highlight the mode you wish to play and press X, Down, Up, A. You'll hear a sound to confirm, and the character-select screen will appear, allowing you to play as any character in this mode. Note that no cutscenes will appear and your high scores will not be saved when playing with the character-select active.

Classic Pattern

If you hold the X button down while selecting your character in Single or Everybody mode, you will play with the "classic" puyo pattern (Arie's pattern) instead of the pattern of the character you chose.

Everybody Puyo POP Cheat

To force the computer player(s) to lose during a game of Everybody Puyo POP, hold L + R and press SELECT.

Bonus Pictures

If you play Puyo POP Fever with a copy of the Game Boy Advance version of Puyo POP Fever plugged into the GBA cartridge slot of your Nintendo DS, you'll find extra pictures of the characters in the Gallery under "View Cut scenes."

Microphone Tricks

• If you blow into the DS microphone at the main menu screens, bubbles will appear and the menu options will bounce.

• If you blow into the DS microphone during the instructional demo, the characters on the bottom screen will turn around to look at you.

• If you blow into the DS microphone when the map is displayed on the bottom screen during a cutscene, the character will react. Blow gently and the character will fight the wind; blow hard and he or she will be blown away.

• If you blow into the DS microphone during a match, your character will speak.

• If you blow into the DS microphone at the title screen, a mini-game will begin. A score will be displayed and a giant puyo will fall from the top screen. The object is to keep the puyo from falling off the bottom screen by using the stylus to bounce it back up. For best results, keep the stylus in contact with the touch screen and push the puyo up from below. You'll score a point for each bounce. After ten bounces, another puyo will appear; after 20 more bounces, a third will appear, with more appearing every ten bounces after that (up to a maximum of six). The last puyo to appear will be a nuisance puyo. If any one puyo falls off the screen or if you hit a puyo in its center, all of the puyo on the screen will pop. You can also push all of the puyo back up at once by blowing into the DS microphone, but you lose points for doing this.

Secret Mini-Game

If you complete the WakuWaku Course or HaraHara Course in Single Puyo POP mode at Normal difficulty or higher, you can play a mini-game while the credits are being displayed. Look closely at the pictures of each character and find the difference between the picture on the top screen and the one on the bottom screen. If you tap the part of the picture that's different on the touch screen, it will advance to the next character. (Note: You must tap it twice). Nine different characters will be displayed in succession, or 16 if you cleared the course without continuing. If you identify the flaw on all of the characters before the credits end, a special picture will be displayed.

RESIDENT EVIL: DEADLY SILENCE

Special Key

If you clear the game and get the "best" ending for either character, you will earn a special key. (To get the best ending when playing as Jill, you must rescue both Chris and Barry. To get the best ending when playing as Chris, you must rescue both Jill and Rebecca.) If you load your game from a save where you unlocked the key, it will appear in your inventory at the start of the game. The key unlocks the door behind the dressing room (the room with the huge mirror on the wall) on the first floor of the mansion. You have to get the Armor Key first so you can unlock the big brown double doors to the east of the central room. Inside this room are brand-new outfits for Chris and Jill; one each in Classic mode and two each in Rebirth mode.

Master of Knifing

Beat the game once in either Classic or Rebirth Mode to unlock a five-stage mini-game called "Master of Knifing."

Rocket Launcher

If you beat the game in under three hours, you'll unlock a Rocket Launcher with unlimited ammo that you can use from the start.

Note that items that you unlock are restricted to the file you used to save your clear data—if you got it by playing JillClassic, you can only use the item during a replay of JillClassic, etc.

Secret Cheat Codes

Enter the following cheat codes at any time during the game (not while paused). Note: Most of the codes cannot be deactivated once

you've turned them on; you must exit the game in order to restore the game to normal. Do not save your game after entering codes; if you do, the codes may be permanently activated in your save file. Also, some codes may cause unpredictable results which may cause the game to "crash," especially if you have several codes in effect at once. Codes that modify the appearance or behavior of vehicles or pedestrians will usually not affect those that are already in the immediate vicinity; you'll see the effects when new vehicles or pedestrians appear. The codes that cause vehicles to appear may not work if you're too far from a street or other area where vehicles are allowed to drive. Activating cheat codes will lower your criminal rating number. MEGA MAN: MAVERICK HUNTER X**Secret Capsule**

To use Ryu and Ken's Street Fighter Hadoken fireball as Mega Man X, beat all eight bosses and collect all the Life-Ups, Sub Tanks and Armor Parts. Make sure all of your Sub Tanks are full, then play through Armored Armadillo's stage without taking any damage. This is easier than it sounds if you make good use of the Rolling Shield and Storm Tornado. At the end of the stage, jump off the final mine cart so that you stick to the wall above the boss' door, and climb until you reach Dr. Light's Capsule. The Hadoken will kill any boss in one hit (except the final boss) and can be executed in the same way as in the *Street Fighter* series: Quickly rotate the D-pad or analog stick in a quarter-circle movement from **Down** to **Forward**, followed immediately (if not simultaneously) by the **Attack** button.

10 Extra Lives

See the little polar bear in front of the door that leads to the "Bear it" stage in the second warp room? If you body-slam the critter five times in a row, you'll get ten extra lives.

Secret Levels

To access Level 26: Totally Bear, ride the bear cub in Level 15: Un-Bearable until you get thrown off at the end of the stage. Do a long jump to go back across the chasm and return to the cub to warp to the first secret level.

To access Level 27: Totally Fly, fall into the pool of water in the latter half of Level 16: Hangin' Out, then walk backwards instead of advancing past the checkpoint box. You'll fall into another hole that leads to a "hanging" area with flying spikey creatures. While Crash is hanging, use the **○** or **R1** button to lift his legs up and allow the spikey guys to pass below him; take it slow, advancing only one "step" for each enemy "lap." If you get through, you'll be warped to the second secret level.

You'll encounter a series of pterodactyl creatures who fly up into the air as you pass. If you jump into the clutches of the second pterodactyl, it will carry you to the top-secret Level 32: Eggitpus Rex.

X-MEN VS. STREET FIGHTER

Secret Options Menu

At the main menu—the one that says "Battle Mode / V S . Mode / Training Mode" etc.—press Δ, Δ, Right, O, L1: you must enter this code very quickly. If you've done it fast enough, you will be taken immediately to a secret "EX Option" menu with two special options:

- "Game Mode" lets you use a limited version of the "tag team" option from the *X-Men vs. Street Fighter* arcade game. To do this, set "Game Mode" to "Original", then start a game in Vs. Mode. At the character-select screen, Player 2 must choose the same characters that Player 1 has chosen, but in the opposite order. (For example: if Player 1 chooses Cyclops, then Ryu, Player 2 must choose Ryu, then Cyclops.) If you've done all this correctly, when the fight starts you'll see that each of the four characters has his or her own energy meter. During the match, if you press **Fierce Punch** + **Roundhouse Kick** simultaneously (that's L1 + R1 if you haven't changed the game's default control configuration) you will "tag out" and switch places with your partner, who enters with an immediate attack on your opponent.
- If you set the "Hyper Combo Gauge" option to "Full", your Hyper Combo Gauge will fill up to Level 3 automatically when playing in Vs. Mode.

Play as Apocalypse

First, beat the game in Battle Mode at any difficulty setting without losing a single round. Once you've accomplished this, start a game in Vs. Mode. At the character select screen, highlight Akuma, hold the **SELECT** button and press any action button. Apocalypse will appear as your chosen character. Here are some of his moves:

BANJO-KAZOOIE

Secret Codes

Each of the following codes can be entered on the floor of the Puzzle Room inside the sand castle in the Treasure Trove Cove stage; just plow some eggs into Leaky the bucket so he'll drain the pond and you can walk inside. Use the Beak Buster move on the lettered tiles to spell out the code words as follows:

For each code, you will hear a "Moo!" sound when you enter the first five letters; if you do not hear the "Moo!" during the first five letters, exit the sandcastle and go back in. You will not hear any special sounds when you enter the remaining letters of each code, so take your time and aim carefully.

Bottles' Bonus Codes

Enter Banjo's house, stand on the yellow lines on the carpet directly in front of the fireplace, then press the C button to enter the first-person camera view. Now look directly at the picture of Bottles on the wall; Bottles will give you a puzzle to solve. Note: Bottles will not allow you to access the puzzles until you have obtained the puzzle piece from the sand castle. There are seven codes available if you can solve all of the puzzles. Cheat Codes

codes that you

at the letters on the wall in the Code Chamber to spell the words. However, each of the codes that he gives you will not work until after he has told you about it. The following codes can be entered at any time after you've cracked open the Code Chamber, including six codes that have the same results as the ones that Cheato and Madame Grunty give you and several new ones. Once you've entered a code, check out the sign on the wall to the right of the letter board to turn each cheat on or off.

CHEATOSREHATEF—This code has the same effect as Cheato's "FEATHERS" code; it doubles the maximum amount of feathers that you can carry.

CHEATOGEGG—This code has the same effect as Cheato's "EGGS" code; it doubles the maximum amount of eggs that you can carry.

CHEATOFORPLAF—This code has the same effect as Cheato's "FALLPROOF" code; it allows you to fall from any height without losing energy.

CHEATOKCABYENOH—This code has the same effect as Cheato's "HONEYBACK" code; it causes your energy meter to slowly regenerate.

CHEATOXBEKUJ—This code has the same effect as Cheato's "JUKEBOX" code; it allows you to listen to any of the game's music tracks by accessing the jukebox in Jolly's Inn at Jolly Roger's Lagoon.

CHEATOJGITEG—This code has the same effect as Madame Grunty's "GETJIGGY" code; it activates the signs in Master Jiggawiggy's temple that tell you where the jiggies are located in each stage.

CHEATOSUPERBANJO—With this code in place, both Banjo and Kazooie will run much faster. **CHEATOSUPERBADDY**—Activate this code to make the game more challenging by speeding up all of the enemies.

CHEATOHONEYKING—Enter this cheat to completely disable the honeycomb meter and air meter; now you're invincible and can stay underwater or in toxic areas for as long as you want.

CHEATONESTKING—This cheat gives you unlimited eggs and feathers; your inventory will show that you have "LOTS" of every type.

CHEATOJIGGYWIGGYSPICIAL—This code unlocks all of the doors in the Isle O' Hags area, giving you access to all levels.

CHEATOGNIMOH—This code has the same effect as the "HOMING" code that you get from hav-

ing Heggy hatch the pink egg; it improves your aim when firing eggs by causing them to change direction and curve toward any nearby enemy.

The remaining two cheats will not cause new menu items to appear on the wall in the code chamber; once you have entered them, their results will immediately remain in place.

CHEATOCASTLIST—Unlocks a new option called "Character Parade" at the Cinema menu in Replay mode; this option is normally unlocked by collecting 90 jiggies. Note that this code will not work if you have already found 90 jiggies in any one of the three saved game slots; it also will not register if you have already entered the following code...

CHEATPLAYITAGAINSON—Unlocks all of the items in Replay mode, including the "Character Parade" movie mentioned above.

BEEBLE ADVENTURE RACING

Cheat Menu

Race on the Coventry Cove course in Championship mode until you see a barn on the right side of the road with two haystacks in front of it. Note that the crate will not be there unless you are playing in Championship mode. Once you've smashed the crate, finish the race; the words "Cheat Menu Activated" will appear at the Player Results screen. Now return to the main menu and access the Options screen; you'll find a new option called "Cheats" at the bottom. Each item on the cheat menu must be "unlocked" before you can use it; you will unlock a new cheat each time you smash a flower crate in Championship mode. Some of these crates are very well hidden, so you're going to have to do a lot of searching to find them.

LEGO RACERS

Cheat Codes

From the main menu, select "Build." Then, from the "Build Driver" screen, select "New Racer." Enter the following codes as your name at the "Make License" screen. Remember, after entering the very last letter, press Down on the D-pad instead of pressing a button. After entering a code, go straight to the "Build Car" screen and create any kind of car. As long as the driver with that name is still in your line-up of available racers, the code will be active

WAVE RACE 64**Ride the Dolphin**

Enter Stunt Mode and choose the Dolphin Park course. Now perform all of the possible stunts (handstand, ride backwards, stand up, somersault, vertical flip off a ramp, barrel roll off a ramp clockwise and counter-clockwise and submarine dive off a ramp), go through all of the rings and finish the course before the timer expires. The easiest way to accomplish this difficult task is to do all of the non-ramp stunts at the beginning of the course, before

you reach the ramps; you can even do one stunt—like the stand and somersault—before you cross the starting line and you should still have enough time to reach the first checkpoint. There are only four ramps in the course, so you must do a different ramp stunt on each of them. If you do all of the above correctly, you should hear the dolphin chattering when you cross the finish line. With this trick accomplished, return to the main menu, choose Championship mode and select the “Warm Up” option. When the Watercraft Select menu appears, highlight the character you want, hold the joystick **Down** and press a button to confirm your choice. (If you want the alternate-color character, hold **Up** on the D-pad while holding **Down** on the joystick.) When the race starts, you’ll be riding the dolphin instead of a jet ski. With the dolphin trick accomplished, you’ll also find that the game’s demo mode alternates between the normal demo and a new demo of people riding dolphins.
